Taipei-Moscow, 26 April 2020

Mr. Emil Gimranov  
Director  
UZINFOCOM

Dear Emil:

On behalf of the APTLD community and the Board it our great pleasure to congratulate UZINFOCOM on the 25<sup>th</sup> anniversary of the internet in Uzbekistan.

Since its onset, UZINFOCOM has been at the heart of Uzbekistan' efforts to to develop a better, safer and more robust Internet for local residents, businesses, academia, and government.

Though a fairly new member of the APTLD community, we were greatly impressed by the booming internet industry in Uzbekistan and the nation's rapid transformation into a sub-regional powerhouse for employment and promotion of best international practices in the Internet and ICT area, which would not have been possible without UZINFOCOM's leadership and highly professional staff.

Having been privileged to witness Uzbekistan's successes at the time of APTLD74, we appreciated the spirit of innovation and strive for excellence, and the Government and the local internet community's hard work in that regard, and we are confident that the upcoming quarter-century is going to be even more fruitful and productive for the Internet's advancement in Uzbekistan as the initial twenty five years.

We wish UZINFOCOM every success on the path towards better, safer and more secure Internet in Uzbekistan.

With warmest regards,

Ai-chin Lu  
Board Chair

Leonid Todorov  
General Manager
